

Statement on Aggression Against Ukraine

March 2, 2022

"The Independent Film & Television Alliance (IFTA[®]), the worldwide trade association of independent production, sales, and distribution companies, joins with others in our industry to condemn the aggressive actions of the Russian Federation against Ukraine and to urge the immediate end to the violence to Ukrainian citizens. These tragic and divisive events strike at the heart of the collaborative spirit of our creative community. IFTA offers its hope for peace and its support to our colleagues in Ukraine."
