

Statement from the Independent Film & Television Alliance® (IFTA®) on today's introduction of a federal film production incentive:

"The Independent Film & Television Alliance® is pleased to support the introduction of legislation to establish a federal production incentive for film and television. A federal incentive will help increase U.S. production and create new jobs in states across the country. We thank the bill sponsors for their leadership and look forward to working with them to ensure this new and important incentive can serve as a meaningful catalyst for independent film and television production in the U.S."
